Can Man Vending - Bill's Success Story

Working with the Employment Services division at Do-All, Inc., Bill began his new vending business on April 13, 2009. It took no time at all to think of the name for his business: "Can Man Vending". The business began with two vending machines located in Saginaw businesses. Can Man Vending has already grown to include 6 machines placed throughout the area.

Do-All Employment Services has supported Bill as he works through the issues faced by any small business owner. Working with his Job Coach, Eric, helps Bill service his customers and grow his business. Bill says, "Eric helps me on what to pick out for the snack machines when we go to Sam's Club. He also reminds me when I need to be somewhere and what time I have to be there."

He also states, "I am having fun with my business and I am the only one that has the keys for my machines."

Bill is thankful for the loan he received from Do-All to purchase two more machines to accommodate his business's latest placement at R&R Redi Mix. He is presently working with the ARC/payee to pay back this loan. The ARC has also been very supportive of Bill and his business venture - working with him to set up a separate business account.

Bill continues to seek available sites for placement of additional pop or snack machines. For further information, please contact **Employment Services at 989.529.5934.**
