

# Become a Volunteer

You can be a part of the Do-All mission. Join us as a volunteer and see first-hand how we work to make life better for our community. Volunteers are involved throughout our organization and perform mentoring tasks with our trainees. There are many possible areas to become involved with at Do-All and we always welcome new volunteers!

If you enjoy being outdoors, gardening and with people, Do-All, Inc. now has volunteer opportunities with our Training Gardens onsite and offsite. The training gardens/projects are planted and maintained/cared for by individuals with disabilities who are interested in acquiring agricultural employment skills. The gardens will provide employment training, supported self-employment opportunities. Some of the produce and flowers from the gardens are sold at our local Bay City Farmers Market.

We give back to the community by maintaining a 1-mile section of the Rail trail. Do-All, Inc. has also adopted Columbus Green Park to maintain and beautify for several years.
